finistère

ces morceaux d'océan
dansants
ces brins de terre
tranchants
ces mouvements de ciel
filants
et nous dedans.

l'arbre blanc

et là, au cœur
de la plaine
d'ombres,
se dresse
seul
l'arbre blanc.
comme un oubli
de lumière.

urbanisme

derrière ces lignes
aiguës
s'entassent
des milliers
d'organismes,
des amas de cellules
rangées, organisées,
quand dehors
tout est fluides.

para vents

il est de jours où
tout se bouscule,
des jours où
tout s'entrechoque,
des jours où
funambule,
je vacille sous le choc.
au milieu de ces vents
ton rempart me protège.
là où tu es, où je ne sais pas
encore,
je sais.

épine dorsale

au-dessus s'étend
le squelette fatigué
d'une architecture
oubliée.

brutalisme

plongée
au cœur
du brut
sans fin
ni fond

À BIEN TÔT
